

Each of the Architecture for Humanity projects Bogota comprise a spectrum of multiple skills and activities, we conduct our work through a multidisciplinary team to enable us to address the problems in a comprehensive and consistent way with our objectives. However, we always have our doors open for anyone who wishes to participate and collaborate either through tangible or intangible things, for this reason, if you want to make a contribution in any of the operations to be developed within a project contact us, we will be willing to provide the information required to insert your knowledge or time within the ongoing projects.

Finally, we must highlight that all contributions made to AFH Bogota are duly certified and are consistent with the laws of regulatory agencies.
